## **Amendment**

Kindly amend the claims as follows:

- 1. (Currently amended) A method of treating a patient for sleep disorders selected from the group consisting of insomnia and sleep apnea comprising the oral or parenteral administration of administrating to said patient a therapeutically effective amount of from about 10 mg. to about 300 mg. of 2-cyano-10-(2-methyl-3-(methylaminopropyl)phenothiazine (I) or a pharmaceutically acceptable salt thereof.
- 2. (Cancelled)
- 3. (Original) The method as set forth in claim 1 wherein said sleep disorder is primary insomnia.
- 4. (Original) The method as set forth in claim 1 wherein said sleep disorder is primary insomnia related to another mental disorder.
- 5. (Original) The method as set forth in claim 1 wherein said sleep disorder is obstructive sleep apnea.
- 6. (Cancelled)
- 7. (Cancelled)
- 8. (Withdrawn) A method of treating a patient suffering from a disease selected from the group consisting of anxiety disorder, mood disorder, mixed anxiety-depression disorder, acute and chronic psychotic state, addiction to and withdrawal from a substance, extra-pyramidal event

induced by an antipsychotic and a symptomatic dimension during acute or chronic psychotic state, comprising administering to said patient a therapeutically effective amount of 2-cyano-10-(2-methyl-3-(methyl amino)propyl)phenothiazine (I) or a pharmaceutically acceptable salt thereof.

- 9. (Withdrawn) The method as set forth in claim 8 wherein said disease is anxiety disorder.
- 10. (Withdrawn) The method as set forth in claim 8 wherein said disease is mood disorder.
- 11. (Withdrawn) The method as set forth in claim 8 wherein said disease is mixed anxiety-depression disorder.
- 12. (Withdrawn) The method as set forth in claim 8 wherein said disease is an acute and chronic psychotic state.
- 13. (Withdrawn) The method as set forth in claim 8 wherein said disease is addiction to and withdrawal from a substance.
- 14. (Withdrawn) The method as set forth in claim 8 wherein said disease is an extra-pyramidal event induced by an antipsychotic.
- 15. (Withdrawn) The method as set forth in claim 8 wherein said disease is a symptomatic dimension during acute or chronic psychotic state as monotherapy or in combination with another antipsychotic.
- 16. (Withdrawn) The method as set forth in claim 8 wherein 2-cyano-10-(2-methyl-3-(methylamino)propyl)phenothiazine (I) or a pharmaceutically acceptable salt thereof is present in an amount of from about 10 mg to about 300 mg.

- 17. (Withdrawn) The method as set forth in claim 8 wherein 2-cyano-10-(2-methyl-3-(methylamino)propyl)phenothiazine (I) or a pharmaceutically acceptable salt thereof is administered orally or parenterally.
- 18. (Withdrawn) A method for preparing a medicament comprising mixing a therapeutically effective amount of 2-cyano-10-(2-methyl-3-(methylamino) propyl)phenothiazine or a pharmaceutically acceptable salt thereof with one or more compatible and pharmaceutically acceptable diluents or adjuvants.
- 19. (Withdrawn) The method as set forth in claim 18 wherein 2-cyano-10-(2-methyl-3-(methylamino)propyl)phenothiazine (I) or a pharmaceutically acceptable salt thereof is present in an amount of from about 10 mg to about 300 mg.
- 20. (Withdrawn) The method as set forth in claim 18 wherein the medicament further includes an antipsychotic.
